Prevent

April 9, 2019

Northeast Community College
Life Long Learning Center
601 East Benjamin Avenue
Norfolk, Nebraska

Agenda

- 7:30 am Registration
- 8:30 Welcome and Introduction
- 8:35 **Introductions to Norfolk Community Partnerships and Efforts**
Norfolk Community Sepsis Community Action Team (SCAT)
- 8:40 **The Story of Walt Aikman, My Father**
Susan Runyan
- 9:00 **Sepsis Across the Continuum of Care**
Steven Q. Simpson, MD
- 10:30 Break
- 10:45 **Antimicrobial Stewardship: Strategies for Every Setting**
Trevor Van Schooneveld, MD, FACP
- 12:15 pm Lunch [provided]
- 1:15 **Preventing Infections that Lead to Sepsis through Immunization**
Archana Chatterjee, MD, PhD
- 2:45 Speaker Panel / Q&A
- 3:15 Thank You and Closing Comments

Speaker Biographies

Steven Q. Simpson, MD

Dr. Simpson has 35 years of clinical experience in caring for patients with sepsis and trained with Roger Bone, whose work was the basis of the first consensus definitions for severe sepsis and septic shock. He has been the medical director for multiple tertiary and academic ICUs and has led the sepsis team at the University of Kansas since 2004. He is past chair of CHEST's Critical Care NetWork, led CHEST's annual postgraduate course in critical care for six years, and has served numerous times on the program committee for the CHEST annual meeting. He has extensive research experience in sepsis, including cell and molecular studies, clinical trials, translational studies, and epidemiology. Dr. Simpson teaches sepsis recognition and treatment nationally and internationally and has authored or co-authored numerous highly cited sepsis papers, including the Surviving Sepsis guidelines and the IMPRESS study. He founded the Kansas Sepsis Project, a collaborative effort to raise the quality of sepsis care across his home state and has led the Midwest Critical Care Collaborative since its inception in 2005. Dr. Simpson is a member of the board of directors and is Medical Director of the Sepsis Alliance, a national education and advocacy group for victims of sepsis. Currently, he is consulting with the Great Plains QIN to train rural EMS providers to recognize and provide pre-hospital care for patients with sepsis. Dr. Simpson currently spends half of his time working for the U.S. Department of Health and Human Services under the Assistant Secretary for Preparedness and Response in the Solving Sepsis arm of the Biomedical Advanced Research and Development Authority.

Trevor Van Schooneveld, MD, FACP

Dr. Van Schooneveld is an Associate Professor in the Division of Infectious Disease, Department of Internal Medicine at the University of Nebraska Medical Center in Omaha, Nebraska. Dr. Van Schooneveld has been the Medical Director for the Nebraska Medicine Antimicrobial Stewardship Program for the last 9 years and serves as the medical director for the State of Nebraska Antimicrobial Stewardship Outreach Program. He also serves as the Program Director for the UNMC Infectious Disease Fellowship Program and is an Associate Medical Director of the Infection Control department at his institution. Dr. Van Schooneveld is an Associate Editor for Infection Control and Hospital Epidemiology. He received his M.D. from the University of Nebraska Medical Center and subsequently completed an Internal Medicine residency, including a chief resident year, at UNMC. He completed his Infectious Disease fellowship training at Creighton University Medical Center before joining the faculty at Nebraska. His research activities focus on antimicrobial stewardship and C. difficile infection.

Archana Chatterjee, MD, PhD

Dr. Chatterjee is Professor and Chair of the Department of Pediatrics and Senior Associate Dean for Faculty Development at the University of South Dakota Sanford School of Medicine, Sioux Falls, SD. She has previously served as the Associate Dean for Academic and Faculty Affairs and Chief of the Division of Pediatric Infectious Diseases at Creighton University School of Medicine in Omaha, NE. Dr. Chatterjee has been elected/selected to serve on several national Advisory Boards and Committees including the US Food and Drug Administration's Anti-Infective Drugs Advisory Committee and the Steering Committee of the Association of American Medical Colleges (AAMC) Group on Faculty Affairs. She is currently serving as Past Chair of the AAMC Group on Women in Medicine and Science; member of the Board of Directors of the Association of Medical School Pediatric Department Chairs; member of the Board of Directors of the Pediatric Infectious Diseases Society (PIDS); member of the Clinical Affairs Committee, the Nominations and Awards Committee, and the Programs & Meetings Committee of PIDS; vice-chair for the Bone and Joint Infections Guideline Committee for PIDS. In 2016, Dr. Chatterjee was chosen for the prestigious Council of Deans' Fellowship by the AAMC. Dr. Chatterjee has conducted over 110 clinical trials, published over 80 peer-reviewed articles, 26 invited review articles, 22 book chapters and one book. She serves as a reviewer for 35 journals including the New England Journal of Medicine, Academic Medicine, Pediatrics, the Journal of Pediatrics, the Pediatric Infectious Disease Journal, the Journal of Pediatric Infectious Diseases, Clinical Infectious Diseases, Infection Control and Hospital Epidemiology and the American Journal of Infection Control. In the past 20 years, Dr. Chatterjee has delivered over 500 lectures and 150 scientific presentations at various international, national, regional and local venues. She has served as the course director for over 40 CME programs, given over 55 media interviews and published 25 newspaper articles.
