Do Your Part...

- ✓ For your **community**
- ✓ For your **loved ones**
- ✓ For **yourself!**

Sepsis is the **3rd** leading cause of death in the U.S.; after heart disease and cancer.

1 person every 2 minutes

dies from sepsis in the U.S.¹

80 million

antibiotic prescriptions written each year in the U.S. are unnecessary.²

50,000 adults annually in the U.S. die from **vaccine preventable** infections.³

87%  of sepsis cases start in the community.¹

Each year more than **2 million** persons in the U.S. are infected by antibiotic resistant bacteria.

23,000

die from those infections.²
