

Medication Safety

Learning and Action Network Series

Great Plains Quality Innovation Network

Join us for the **GPQIN Medication Safety Learning and Action Series**. Medications can be lifesaving treatments that change the world. Unfortunately, if not used properly, medications can also lead to adverse events. Great Plains Quality Care Coalition recently launched a Medication Safety Learning and Action Series to address this challenge.

Upcoming Event: Medication Safety Webinar #3 – What Matters Most | May 18, 2021 - 3:00 p.m. CT
Presenter: Lufei Young, PhD, RN, APRN-NP | Associate Professor; Augusta University, College of Nursing
[Register Today](#)

Webinar Objectives:

- Compare/contrast 3 models relevant to medication safety to utilize in an upcoming team meeting
- Discuss the implications of these three models in your practice or organization

Past Events
