READY, A SET, A VACCINATE!

- 1. Have you received your annual flu vaccine?
- 2. Is your COVID-19 vaccine up-to-date?
- 3. Are you eligible for the pneumonia vaccine?
- 4. Are you eligible for the RSV vaccine?

By getting vaccinated, you are protected against serious illness, and sometimes death, from vaccine-preventable diseases. Vaccines also protect you from spreading those diseases among family members, friends, colleagues, classmates and your community.

Getting multiple vaccines at the same time has been shown to be safe. Ask your healthcare provider today.
